

INPUT PROMPT

How many notices were published by buyers who awarded a contract to Dodd Group (Midlands) Limited?

(a) From question to executable graph

Typed intent

A filter supplier=Dodd
B distinct buyer(A)
C filter buyerEB
D count(C)

deterministic
intent compiler

Typed DAG

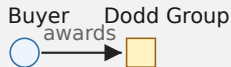

A → B → C

records → buyers → records

COUNT(C)

Step 2 planner
not used here

Bridge semantics

same buyer

all notices

supplier → awarding buyers
→ those buyers' notices

(b) Deterministic bridge execution

A · source

supplier_name =
Dodd Group

Dudley MBC
Solihull MBC
Fusion21
